The History of Print and Digital Culture

James P. Danky, Christine Pawley, and Adam R. Nelson, Series Editors

This book series is published on behalf of the Center for the History of Print and Digital Culture, a joint program of the University of Wisconsin–Madison and the Wisconsin Historical Society. Currently limited to volumes originating in the Center’s biennial conference, the series fosters research and writing on the mediating roles that print has played in American culture since 1876. Its scope encompasses studies of newspapers, books, periodicals, advertising, and ephemera. Special attention is given to groups whose gender, race, class, creed, occupation, ethnicity, and sexual orientation (among other factors) have historically placed them on the periphery of power but who have used print sources as one of the few means of expression available to them.

Prior to 2015, this series was called Print Culture History in Modern America.

Libraries and the Reading Public in Twentieth-Century America

Edited by Christine Pawley and Louise S. Robbins

“The focus on libraries not as cold, impersonal institutions engaged in promulgating top-down policies but rather as spaces populated by people with diverse backgrounds, needs, and values is what makes this volume valuable.”
